PROFESSIONAL SUMMARY

Full stack product engineer combining business operations experience with modern software engineering. Delivers enterprise SaaS, ERP/accounting platforms, marketplaces, e-commerce systems and business automation tools end to end — from database design through to production deployment. Fluent in English and French, comfortable working with international teams and open to relocation.

EXPERIENCE

MOST RECENT

Full Stack Product Engineering

Designing and building production software end to end — enterprise SaaS, accounting/ERP platforms, marketplaces, e-commerce and business automation tools.

PRIOR CHAPTER

Logistics & Business Operations

10+ years in fleet planning, warehouse operations, distribution and process improvement.

EARLIER CHAPTER

Hospitality & Guest Relations

Front office, reception and guest relations work that shaped a lasting instinct for client communication and working calmly under pressure.

EDUCATION & CERTIFICATIONS

DIPLOMA

HND Hospitality Management

EDUCATION

Logistics & Supply Chain Management

CERTIFICATE

Cambridge School Certificate / HSC

CERTIFICATION

Google Digital Marketing & E-commerce
